Case Study

Polymer Competence Center Leoben

The Polymer Competence Center Leoben uses ResearchGate Scientific Recruiting to find a great candidate for research fellowship.

Institution

The Polymer Competence Center Leoben GmbH (PCCL) is the leading Austrian centre for cooperative research in the field of plastics engineering and polymer sciences.

Position

Marie Sklodowska Curie Fellowship - Characterization of Degradation Behavior and Material Interactions in PV Modules

Challenges

• Looking to attract diverse candidates
• Specific academic and technical knowledge required

Results

• 1,100 views
• 14 applications
• Successfully hire for the role
• Hired female candidate

“\textit{We are extremely happy with ResearchGate. We received 14 applications in total and some were great fits. We successfully shortlisted 2 female candidates and found someone for the fellowship.}”

Petra Dobnik, Polymer Competence Center Leoben
